Echo pb 250 mix ratio

PB-250LN 1. Fill an approved fuel container with half of the required amount of gasoline. 2. Add the proper amount of 2-stroke oil to gasoline. 3. Close container and shake to mix oil with gasoline. 4. Add remaining gasoline, close fuel container, and remix. Spilled fuel is a leading cause of hydrocarbon emissions. Some states may require the use of automatic fuel shut-off containers to reduce fuel spillage. After use • DO NOT store a unit with fuel in its tank. Leaks can occur. Return unused fuel to an approved fuel storage container. Storage - Fuel storage laws vary by locality. Contact your local government for the laws affecting your area. As a precaution, store fuel in an approved, airtight container. Store in a well-ventilated, unoccupied building, away from sparks and flames. Stored fuel ages. Do not mix more fuel than you expect to use in thirty (30) days, ninety (90) days when a fuel stabilizer is added. Stored two-stroke fuel may separate. ALWAYS shake fuel container thoroughly before each use. 1. Stop Switch Move stop switch (A) away from the STOP position. 2. Throttle Position Lever Move throttle position lever (B) midway between idle and full throttle positions. 3. Choke Move choke (C) to Cold Start (X7501183303 © 3/2013 ECHO Inc.) (closed) position. OPERATION B A 15 Features: Use a 50:1 ratio of fuel to oil mix for 2-stroke cycle engines, recommend using only fresh gas with a minimum octane rating of 89 or higher (mid-grade to premium) at all times 50:1 ratio equal 1 US Gal. 89 octane plus 2.6 fl. oz. ECHO PowerBlend Oil or ECHO Red Armor Oil Gas leaf blower features a 25.4 cc professional-grade 2-stroke engine Lawn blower comes with a 5-year consumer/2-year commercial warranty Category leading blower performance Double-grid intake design reduces clogging Exclusive curved blower tube provides rotational control reducing fatigue Class-leading performance Weighs only 8.6 lbs. (dry) for reduced user fatigue New air filter design maintains a tight seal to keep engine clean Posi-loc pipes for a secure connection Unique S-pipe design reduces gyro effect on users wrist for improved comfort Variable cruise control allows user to lock throttle, reducing fatigue Shoulder harness attachment points allow for the use of shoulder harness Specifications: Type Handheld Air Volume (cfm-pipe) 453 Engine Displacement (cc) 25.4 Maximum Air Speed (mph) 170 Carburetor Rotary dB(A)1 70 Starting System Standard Dry Weight (lbs)2 8.6 Fuel Capacity (fl. oz.) 18.6 Consumer Warranty 5 years See-Through Fuel Tank Standard Commercial Warranty 2 years Helper Handle Newtons (N) 15.8 1 Per ANSI B175.2-20122 With standard pipes Close product quick view× Contact us online or at (315) 365-2838 Secor offers home remodeling, design, contractor and building materials supply centers based in Savannah, Newark, and Ontario, New York, in the heart of New York's Finger Lakes region. Our designers, contractors and builders work with clients in Monroe, Ontario, Wayne, Seneca, Cayuga, Oswego and Onondaga Counties in New York state. For a complete list and further options please see our Privacy Policy Page 10Featuring a quiet low emissions 2-stroke stratified charge engine, the new BG 66 C-E handheld STIHL leaf blower is perfect for cleaning up leaves and debris in noise sensitive areas. While a stop switch helps take the guesswork out of getting started, a semi-automatic choke lever designed to help prevent accidental flooding, combined with ErgoStart ensures easier starts— everything you need to get going with your next clean up task.Max Air Throughput - 730 m³/H Displacement - 27.2cc Weight - 4.7kg Warranty - 1 year Professional/2 year DomesticReduced-emission engine technology - 2-stroke engine with stratified charge. A fuel-free layer of air is created between the burned charge in the combustion chamber and the fresh charge in the crankcase, reducing the amount of fuel lost during the charge cycle. This results in more power with a lower weight, up to 20% lower fuel consumption than regular 2-stroke engines and significantly reduced exhaust emissions. Manual fuel pump (Purger) - A small fuel pump delivers fuel to the carburettor at the touch of a button. This reduces the number of starting strokes required following extended breaks in operations. Catalytic converter - Considerably reduces the quantity of harmful particles in the exhaust gas. STIHL ErgoStart (E) - A genuine advance in easy starting. STIHL ErgoStart (E) cuts the effort required to start the tool by half, while the starter cord can be pulled at just one third of the normal force. All it takes is 2 fingers and a gentle pull action. One handed control with soft grip area - For a secure and comfortable grip. The integrated anti-static system counters electrostatic charging. Throttle lock with built in stop switch - The running machine switches off immediately after a brief press of a button. Once the machine is at a standstill, the ignition activates again automatically, meaning it is always ready to start. Low noise sound damper - The BG 66 C-E with built-in sound damper is built for use in noise-sensitive areas. The measured noise reduction for the human ear is up to 35% compared to the previous model. Despite the relatively low noise emission, the BG 66 C-E is a strong, reliable helper with high performance. Anti-vibration system - Intense vibration at the handles of power tools can lead to longer-term effects of blood vessels in the hands and arms. STIHL have therefore developed an effective anti-vibration system where by the oscillations from the machines engine are dampened which significantly reduces vibrations at the handles allowing for more comfortable and safer operation. - Our own Winchester Garden Machinery semi synthetic two stroke oil approved for use in this machine - 1 Litre two stroke mixing bottles with measuring points for 25/1, 32/1, 40/1 & 50/1 mixing ratios. (50/1 required on this machine) - The Stihl gutter cleaning kit is a great attachment for cleaning dirt & leaves from gutters and piping. Approx. 3m long.
